

Relationship Developmental Intervention (RDI)

2 days Introductory Seminar in Okayama

A Two-day introductory guide for parents and professional training for RDI in Okayama city, in Japan. RDI is a cutting edge, family-based intervention, designed to remediate the core deficits of Autism Spectrum Disorders (RDI™). We will have precious time to learn about Mindful Guiding. We hope to see you!

Day 1 : Learn about Dynamic Intelligence and how this ability opens the door for greater quality in life. Topics covered include updated research on Autism, and overview of the RDI program and how it targets the core deficit of ASD.

Day2 : Parents and professional will learn about making life style changes through meaningful daily opportunities and dynamic communication. Audiences will learn through interactive activities, role play, video analysis and lively discussion to implement a few beginning RDI objectives.

Speaker: Maisie Soetantyo M. Ed.

B.A. Psychology, Concentration in Developmental Disability, M.Ed. Curriculum and Instructional Design
RDI certified consultant

Ms. Soetantyo, co-founder of the Comprehensive Autism Treatment for Children (CATCH) clinic in Northern California and Indonesia, has been working with children with special needs since 1994. She has been working as a RDI consultant since 2003, and Dr. Gutstein appointed her to the position of Director of Professional Training for South East Asia, and presents extensively throughout Asia in support of that role.

Commentator: Koji Shiraki

Clinical Psychologist, RDI certified consultant

After Koji worked for Nagoya city Child welfare facility, he received "Brief Family Therapy" training at Milwaukee, State of Wisconsin, U.S. in 1991. He is the first RDI certified consultant in Japan in 2005. He found Nagoya & Connect Share Center in 2007, and has providing support to the children who need special care, consultation work and workshop for professionals and parent. Authored book 「Solution Focused Approach」 and many others.
