

8 behaviors that are common stereotypes of “autism behaviors” that are not actually a part of autism, but are simply human behaviors.

AUTISM IS...

NOT

LACK OF SPEECH

NOT

LACK OF EYE CONTACT

NOT

BEHAVIOR PROBLEMS

NOT

SELF-STIM

NOT

ACADEMIC DELAYS

NOT

HABITS OR RITUALS

NOT

NOT LIKING OTHER PEOPLE

NOT

WANTING TO BE ALONE

AUTISM IS...

According to Dr. Gutstein, the loss of the guiding relationship is what uniquely defines children with autism.
